Satisfy your needs is our mission

MERCHANDISING RANGE

OVER 50 YEARS OF EXPERIENCE

Sgariboldi has been manufacturing diet feeders since 1969, and, constantly driven by innovation, in 1987 it became the first company in Europe to come up with a self-propelled machine that mechanises the entire animal feed mixing and distribution cycle on its own, the Combitre.

Today, Sgariboldi designs and manufactures technologically-advanced diet feeders, which are highly regarded and utilised all around the world.

WORLDWIDE PRESENCE

Sgariboldi's solutions can be found in every country worldwide, where the farmers' needs and the quality of the products are often different, or even unique. The experience and specific skills that Sgariboldi has gained over the years have led it to invest more heavily in the global market. While our work constantly leads us into new areas, the company's values, which are rooted in the continuous pursuit of excellence, have always remained the same.
